

### About Buffalo River Fest Park

A 2.5 acre public access park located at 249 Ohio Street on the Buffalo River, Buffalo River Fest Park was opened in June 2011. The park features a beautifully landscaped greenspace with gardens, a bandshell, a pergola, board walk, boat docks, wharf, and interpretive signage. Seventeen grants worth \$5 million were secured to build the park. The final phase of the project - the Tewksbury Lodge - was recently completed. The restaurant features porches overlooking the river, brunch, lunch, and dinner service, as well as banquet and meeting space and public restrooms.

Once a brownfield, Buffalo River Fest Park has spurred development in this historic part of the City. The Ohio Street Corridor is a hub of activity with roadway improvements including new infrastructure, a bicycle path, sidewalks, curbs, and landscaping. Now under construction is a 68 unit apartment building, a five story mixed use building, and a rowing clubhouse.

The Valley Community Association, managed by a committed Board of Directors, staffed by dedicated and competent employees, and assisted by selfless volunteers, constantly strives to provide quality programs and services to create a neighborhood that we are proud to call our own.
